

Industrial B Roller Doors

If you're ready to draw the line at average and reach for better call us today.

To locate Steel-Line branches across Australia call: **1300 427 243** or visit steel-line.com.au

Steel-Line's light duty industrial series B roller door is a robust high quality roller door manufactured from genuine Colorbond® or Zinalume® steel.

Available with direct drive or planetary reduction geared chain drive the series B roller door is ideally suitable to factories, warehouses, commercial applications and available to suit openings up to 5.1m high x 5.4m wide.

Our Steel-Line series B roller door is fitted with the latest in nylon felt webbing to both sides of the door curtain to ensure years of trouble free smooth and quiet operation.

Or for the ultimate in convenience the series B roller door can be fitted with remote control or push button electric operation using either single or 3 phase motor drives.

Made to the highest industry standards and available in a huge range of decorator Colorbond® colours the Steel-Line series B roller door is the right choice for your next project.
